Chennai, India

Career Objective

Aspiring AI Engineer with strong foundation in Python programming, Machine Learning, Generative AI, and LLM-based applications. Skilled in developing AI solutions using Python, LangChain, RAG architecture, vector databases, and backend APIs. Seeking an opportunity to contribute to AI/ML projects while improving my skills in intelligent automation and AI application development.

Professional Summary

Process Associate with experience in engineering and product development support, data validation, issue analysis, workflow monitoring, and process improvement activities. Hands-on knowledge in Python-based AI application development, Machine Learning fundamentals, LLM applications, and RAG-based chatbot systems through personal projects.

Professional Skills

- **Python & Programming**
 - Good understanding of Python programming concepts, scripting, and basic application development.
 - Familiar with writing clean and reusable code for small projects and automation tasks.
- **Artificial Intelligence & Machine Learning**
 - Completed AI/ML training with understanding of Machine Learning concepts, data preprocessing, model workflow, and evaluation basics.
- **Generative AI & LLM Applications**
 - Understanding of Large Language Models (LLMs), Generative AI concepts, and prompt engineering techniques.
 - Hands-on experience developing LLM-based applications using Python
- **RAG & AI Application Development**
 - Understanding of Retrieval-Augmented Generation (RAG) architecture and knowledge-based AI applications.
- **Python Libraries & Data Handling**
 - Familiar with NumPy, Pandas, and Scikit-learn for data processing and machine learning workflows.
 - Experience in data cleaning, validation, and basic analysis
- **Backend & Development Tools**
 - Understanding of REST APIs, JSON, and backend integration concepts.
 - Familiar with Git/GitHub, VS Code, and software development practices.
- **Problem Solving & Collaboration**
 - Experience in analyzing issues, documenting solutions, validating data, and collaborating with teams.

- **Data Analytics & Visualization**
 - Skilled in data analysis, data cleaning, transformation, and visualization using Power BI, SQL, Excel, Pandas, and Python. Experienced in creating dashboards, analyzing trends, and generating data-driven insights.
 - **Business Intelligence Tools:**
 - Working knowledge of Power BI including data modeling, DAX basics, dashboard creation, KPI tracking, and interactive reports.
-

Software Proficiency

- **Programming & AI Tools:** Python, Jupyter Notebook, VS Code, Git/GitHub
 - **AI Development Tools:** LangChain, Streamlit, Ollama, FAISS
 - **Data Tools:** NumPy, Pandas, Scikit-learn, SQL
 - **Data Visualization:** Power BI, Dashboard Development, Data Reporting
 - **Version Control:** Git, GitHub
 - **Microsoft Office:** Excel, Word, PowerPoint, Access, SharePoint
-

Work Experience

Caresoft Global Pvt Ltd – Chennai(2023-Present)

Process Associate

- Collaborated with Factory, Product, and Coding teams to support engineering and product development activities.
 - Performed data validation, defect identification, and issue documentation for product improvement.
 - Supported BOM and MM integration activities by validating data accuracy and monitoring workflows.
 - Analyzed production issues, identified root causes, and coordinated with teams for resolution.
 - Created and managed Process Change Requests (PCRs) to improve processes and quality.
 - Contributed to continuous improvement activities and workflow optimization.
-

Projects

Nexora AI – Personal AI Assistant

Developed an AI-powered personal assistant chatbot using Python, LLM, RAG, LangChain, FAISS, Streamlit, and Ollama

- Built a chatbot to answer profile and project-related queries.
 - Implemented RAG architecture with document processing and semantic search.
 - Used embeddings and vector retrieval for context-aware responses.
 - Created an interactive Streamlit interface.
-

Education

Nallamuthu Gounder Mahalingam College
Bachelor of Commerce (B.Com) - Accounting
2019 - 2022

Municipal Girls Higher Secondary School, Pollachi
HSC - Business Mathematics
2018 - 2019

Government Girls Higher Secondary School, Mannur
SSLC - General Studies
2016 - 2017
